

Conference

Start: Wednesday, October 11 at 12 am (lunchtime)

End: Friday, October 13 at 1 pm (after lunch)

Deadline for **abstract submission:**

September 1, 2017

Online **registration** and abstract submission via

<http://www.gerischer-kolb.de>

Conference fee including access to all scientific sessions, book of abstracts, lunch, dinner and coffee breaks:

Early registration (until 1. August 2017)

Regular participants: 300 €, students: 150 €

Late registration (after 1. August 2017)

Regular participants: 350 €, students: 175 €

Location

The conference will be held at Schloss Reisenburg, the conference site of Ulm University.

Accommodation

A number of rooms is reserved at Schloss Reisenburg for speakers and presenters. We are happy to assist attendees, who will not book a hotel on their own account.

2nd Gerischer-Kolb

Symposium

MODERN ASPECTS OF BIOELECTROCHEMISTRY

FUNDAMENTALS EXPERIMENTS TECHNOLOGY

Schloss Reisenburg
October 11 - 13, 2017

International Bunsen
Discussion Meeting

Deutsche Bunsengesellschaft
für Physikalische Chemie

Invitation

It is our great pleasure to bring to your attention

**The 2nd Gerischer-Kolb Symposium,
an International Bunsen Discussion Meeting
to take place at Schloss Reisenburg, Germany
on October 11th – 13th 2017**

Since 1999, the Gerischer Symposium has been organized every 3rd year on a special topic of contemporary electrochemistry.

The 1st Gerischer-Kolb Symposium held in 2014 was a continuation of this series on fundamental questions of electrochemistry.

The 2nd Gerischer-Kolb Symposium is organized again as an International Bunsen Discussion Meeting and will be devoted to Modern Aspects of Bioelectrochemistry, as this topic appeared to be pathbreaking for the late Dieter M. Kolb, whose scientific mentor was Heinz Gerischer.

The Gerischer-Kolb Symposia are dedicated to the memory of these eminent scientists and their outstanding accomplishments.

We will be delighted to welcome all of you!

Symposium Organizers

Timo Jacob and Ludwig A. Kibler

Institute of Electrochemistry,
University of Ulm, Germany

Contact: nawi.ec@uni-ulm.de

Confirmed Speakers

Ch. Amatore, ENS & UPMC Paris, France
F. Armstrong, Oxford University, UK
A. Bandarenka, TU Munich, Germany
Ph. Bartlett, University of Southampton, UK
R. Bilewicz, University of Warsaw, Poland
A.W. Hassel, Linz University, Austria
A. Heller, University of Texas, Austin, USA
R. Hempelmann, Saarland University, Germany
L. Jeuken, University of Leeds, UK
Ch. Kranz, Ulm University, Germany
A. Kuhn, Université Bordeaux, France
P. Kulesza, University of Warsaw, Poland
F. Lemaitre, ENS Paris, France
F. Lisdat, TU Wildau, Germany
W. Schuhmann, Universität Bochum, Germany
J. Ulstrup, TU Denmark, Lyngby, Denmark
J. Weaver, MIT, Cambridge, USA
G.S. Wilson, University of Kansas, Lawrence, USA
G. Wittstock, Universität Oldenburg, Germany

Conference Topics

Micro- and Nano-Electrodes

Biosensors

Biofuel cells

Enzymes and Biocatalysis

Lipid membranes

Bioanalytical electrochemistry

Photobioelectrochemistry

and all other areas related to

Bioelectrochemistry

**Heinz Gerischer
(1919 – 1994)**

**Dieter M. Kolb
(1942 – 2011)**
